FOR YOUR INFORMATION

PRAGUE IN ENGLISH T AFRICA AND ASIA AT 1530 GMT 12 TWELVE JANUARY

CARRIES THE REVIEW OF THE WEEK BY COMMENTATOR GEORGE HARRER,

WHO SAYS (TEXT OF EXCERPT):

JUST A REMINDER THAT YOU ARE TUNED TO THE AFRO-ASIAN SERVICE
OF RADIO PRAGUE, CZECHOSLOVAKIA, AND THAT WE ARE ON THE AIR TWICE
DAILY WITH A FIFTYFIVE 55-MINUTE TRANSMISSION IN ENGLISH. THE
FIRST TRANSMISSION GOES OUT FROM 1530 TO 1625 GMT IN THE 49, 31,
25, 19, 16, AND 13-METER BANDS AND AGAIN FROM 1730 TO 1825 GMT
IN THE 49, 41, 31, 25, AND 16 METER BANDS.

WE SHOULD STRESS THT THE EARLIER TRANSMISSION, THE ONE BEGINNING
AT 1530 GMT, IS MAINLY DIRECTED TO LISTENERS IN EAST AFRICA,
MAURITIUS, INDIA, CEYLON, AND PAKISTAN, AND EVEN FURTHER EAST,
ADDING THT FOR INDIA, PAKISTAN, CEYLON AND OTHER ASIAN COUNTRIES
RECEPTION IS LIKELY TO BE BEST IN THE 25 TWENTYFIVE METER
BAND AND POSSIBLY THE 13 THIRTEEN METER BAND. OUR SECOND

PAGE 2 RUDLUD 2063 UNCLAS

TRANSMISSION, ON THE OTHER HAND, IS MAINLY DIRECTED TO WEST AND
SOUTHERN AFRICA. BOTH TRANSMISSIONS, HOWEVER, CAN ALSO BE HEARD
IN EUROPE, ESPECIALLY ON THE LONGER WAVEBANDS, THOUGH THE TWENTYFIVE
25-METER BAND OUTLET IS PRETTY VERSATILE AND GETS THROUGH TO
MOST PARTS OF THE WORLD. THOSE WHO COMPLAIN THAT RECEPTION HAS
DETERIORATED RECENTLY WILL BE COMFORTED TO KNOW THAT IT SHOULD
IMPROVE IN THE COMING MONTHS AS THE PERIOD OF DAYLIGHT HERE IN EUROPE
LENGTHENS. ED/SCHNEIDER 13/1337Z JAN
